Serving, empowering, and supporting Missourians to live their best lives.

## Themes

### Capacity and Infrastructure

### Children's Services and Supports

### Quality Outcomes

### Workforce

## Initiatives

Increase community provider capacity to meet the needs of individuals with Behavioral Health/Intellectual Developmental Disabilities (BHIDD) boarding in hospitals, jails, and homeless shelters

Continue planning and development to transition from paper-based operations to an electronic Home and Community Based Services (HCBS) case management system, ConneXion

Increase jail-based competency restoration services

Continue planning and development for new behavioral health hospital in Kansas City

Expand number of Behavioral Health Crisis Centers (BHCC)

Develop a range of services designed to improve parent-child relationships and early childhood mental wellness

Develop and implement services necessary to address the needs of children boarded in hospitals past medical necessity

Create and distribute information to assist parents and caregivers to support their children with behavioral health and intellectual and developmental disabilities

Expand resources to address the needs of youth and emerging adults as they experience the first episodes of psychosis

Continue implementation of the Developmental Disabilities Health Home

Develop streamlined access to autism project resources through the Family Flexible Assistance Program

Analyze current state and develop recommendations to mature Division of Development Disabilities' Value Based Payment for Home and Community Based Services (HCBS)

Increase the penetration rate of Integrated Treatment for Co-Occurring Disorders (ITCD) teams in order to more appropriately treat individuals with co-occurring disorders

Expand Direct Support Professional Apprenticeship

Expand recruitment partnerships with secondary and higher education programs

Design and implement targeted compensation adjustments

Standardize HR business practices across DMH to create consistent processes

Design and implement a Mental Health-specific Post Critical Incident Seminar for DMH staff experiencing trauma

## MOQO: Healthy Living

### Primary Care and Chronic Health Conditions

According to the CDC (2025), people with disabilities require healthcare that treats the “needs of the whole person” and not just the needs related to a disability. Like anyone, a person with a disability needs a primary care practitioner who they see for regular check-ups. Having access to primary care is even more important when the person has chronic health condition(s).

The **NCI-IDD In-Person Survey (IPS)** asks about primary care. In addition, the Division has added state-specific questions to the survey on chronic health conditions and managing them. Data is also collected on StationMD, which is a telehealth service that allows for immediate assessment and healthcare coordination.

This dashboard showcases MO data. The Division can use this to understand the primary and chronic health needs of those receiving services. Data on utilization of StationMD is also included.

#### Primary Care Measures on the NCI-IDD IPS

#### MO-Specific Questions on the NCI-IDD IPS

Do you have a chronic health condition that requires regular monitoring? (N: 395)		Do you need more help to manage your chronic health condition? (N: 175)		Have you used Health Assessment and Coordination Services (Station MD)? (N: 106)

## Treatment Episode Data Set (TEDS) Compliance Rates

TEDS data is collected at program assignment, level change (outpatient, intensive outpatient, residential services, withdrawal management, etc.), and program closure.

The goal for providers is to have at least 80% with completions of TEDS data submissions.

## Status Reports for Mental Health Services

Status Report Type  
Admissions

Status reports are required at admission, annual anniversary of that admission, and discharge for all clients who are enrolled in CPR, ACT, or TCM programs. Clients enrolled in other CPS programs will require a status report only if they have two services at least 30 days apart. The status reports collect a client's residential and employment status, education level, and legal involvement.

## Total Narcan Kits Distributed across Grants

These data show the number of Narcan kits distributed across all opioid related grants by month.

BHCC Activity	CBHL Activity	YBHL Activity	ASAM TEDS Compliance Rates	CPS Status Report	SUD Admission Data	MAUD Trends	MOUD Trends	Overdose Prevention	DBH Facility Vacancies
---------------	---------------	---------------	----------------------------	-------------------	--------------------	-------------	-------------	---------------------	------------------------

## DBH Inpatient Facility Current Vacancy Rates

Inpatient facilities often cover shifts using voluntary second appointments, part-time appointments, voluntary overtime, mandated overtime, and by using staff from contracted staffing agencies. In some cases, vacancy rates reduce the number of beds available for use at facilities.

Security Support Care Assistants are utilized at Fulton State Hospital within the high security units and the sex offender rehabilitation and treatment units at both Fulton State Hospital and Southeast Missouri Mental Health Center.
